Not only did we focus our attention on the "vegan" and "cruelty-free" world, but Kalentin has also decided to **shift towards an Eco sustainable concept while being more mindful about the environment.** One of our main aims is to avoid unnecessary waste. The path to take inevitably takes us towards a reduced use of plastics while favoring that of **materials that can be easily recycled and reused**, after adequate disinfection. Although our daily routines represent only a small drop in the ocean, it is still essential for us to give our input!
